MEMORANDUM FOR: Deputy Director for Administration

FROM: Herbert E. Hetu
Assistant to the Director
(Public Affairs)

SUBJECT: Time Photographer

1. Attached is my memorandum of 19 May concerning Time magazine's intention to produce a major article on intelligence. Time also plans a 4-page photo layout to accompany this article. As you know, Mr. Knoche approved this proposal at the staff meeting this morning.

2. The Time photographer assigned to produce the photo layout is Stanley Tretick. Tretick is a highly regarded still photographer who, among other things, covered President Carter's campaign for Time. Tretick requests to spend two days photographing the inside and outside of the building. The dates suggested are 31 May and 1 June. He will be bringing one assistant with him. He understands that someone from my staff and at least one security man will be with him at all times. Tretick has agreed to any restrictions we impose from a security point of view. He will submit all of his photographs for security review before they are submitted to the Time picture editor who will select the photo layout.

3. Following are some of the specific areas he wishes to include:

a. Outside angles of the building, emphasizing the interesting architecture.

b. Main corridor on the first floor.

-2-

c. Shots in some of the same places CBS is filming, i.e., DATACOM, Ops Center, mapmaker, etc.

d. Several views in the library.

e. Photographs inside and outside of the bubble.

f. Other areas of interest as he tours the building.

4. I would very much appreciate it if you would assign a project officer from your office and/or security to assist us with this project. The most important answer I need immediately is whether 31 May and 1 June are convenient.

MEMORANDUM FOR: Deputy Director of Central Intelligence

SUBJECT : Time Magazine Article on Intelligence

1. Strobe Talbott, diplomatic correspondent, and Bruce Melan, Pentagon correspondent, for Time magazine, are collaborating on a major article on intelligence. It has been described to me as similar to the article which appeared in Time this week about the Defense Department and national security. The correspondents are scheduled to meet with the DCI at 2:00 p.m. on 2 June. They have also requested interviews with you (DDCI) and the DDI on the same day if possible. It is now expected that the article would be finished by 9 June and be on the streets on Monday, 13 June.

2. To accompany this article the picture editor has requested permission to have a Time photographer present at the interviews. In addition they wish to photograph the exterior of the CIA building and locations and activities within the building which we would select. They have agreed to abide by any restrictions we may place on the photo sessions, i.e., they would expect to have a security man with the photographer both while he is photographing and, if necessary, while he is developing his film. They will provide us with any negatives which we would reject on the grounds of security.

3. I need your approval and a time for the interview as soon as possible.

Herbert E. Hetu
